Dear Kevin,

I wanted to write to you and thank you for speaking to the Boeing Leadership Association in Richardson, Texas. We have had many consistently positive comments on your talk on "Pressure Cooker Confidence". It was especially relevant to us since Boeing has such a strong association with aviation – and because we feel like we work in a pressure cooker much of the time.

Thank you so much for sharing your time and your insights with us in such an enlightening and enjoyable way.

Sincerely yours,

Michael Bell
Vice President
Boeing Leadership Association Richardson Texas
